Executive Director Welcome

Welcome all WUN delegates to the home of the Treaty of Maastricht – birth certificate of the European Union.

WUN is proud to hold our Annual Conference and AGM in this historic city, along with workshops and the Presidents Forum in Brussels; and to celebrate the 40th anniversary of the University of Maastricht.

The WUN Conference & AGM grows stronger and deeper each year. This is the flagship event of WUN's annual calendar. Here we present and celebrate selected research programs in the WUN Global Challenges – worldwide teamwork that is central to the WUN identity. We meet to plan our strategic priorities for the coming year and beyond. We focus the ideas of our members to build our success.

We have distilled an exciting program of conferences and workshops that draw together a taste of our research and education portfolio. The 2nd WUN Migration Conference will examine the vexing issues confronting Europe as a seemingly endless wave of humanity seeks a better life. The successful in-FLAME Network joins us for their 5th Annual Workshop tackling the challenge of chronic inflammatory non-communicable diseases. WUN launches its Economics Cross-Cutting theme, with the inaugural WUN Economics Workshop, laying the groundwork for collaborative programs that draw in the full strengths of our economists. The new WUN Africa Group explores its strategic advantage.

The WUN Global China Group hosts a workshop on China's foreign direct investment and global supply chains, in nearby Brussels. We partner with Maastricht University to present a symposium on the International Classroom that explores the globalisation of higher education. Our strengths in public health are on full display with two separate workshops addressing health resilience and global health partnership respectively. It is a packed schedule, so I hope you find the time to explore charming Maastricht!

This is also the time to reflect on the many people who dedicate their time and talent to WUN throughout the year. A heartfelt thank you to everyone who serves on a WUN governance board or global challenge steering group, our marvelous coordinators, our dedicated Secretariat team and all the researchers who work on our programs. It is your energy, expertise and enthusiasm that succeeds.

On behalf of all of us, a special thank you to our hosts, President Martin Paul and his colleagues at Maastricht University for their welcome, hospitality and assistance with organisation.

Wishing you all an inspiring memorable and enjoyable conference and AGM!

A handwritten signature in black ink that reads "John P. Hearn".

Places of Interest

Maastricht is one of the oldest towns in Holland and has several places of interest to explore. A stroll through the town will give visitors a glimpse of the historic churches, city walls and quaint town squares. For more information on sightseeing in Maastricht, visit www.vvmaastricht.nl/.

Fort St. Pieter

Fort St. Pieter is perched above the Meuse River on the south side of the city and is directly connected with the caves of St. Pietersberg Hill via underground tunnels. Fort St. Pieter offers an interesting look into the history of Maastricht's fortifications. Please note Fort St. Pieter can only be visited with an official guide. Reservations can be made at the tourist information office in Maastricht and tours run for about an hour.

Northern Caves of Saint Pietersberg Hill

The Northern Caves of Saint Pietersberg Hill, also known as Grotten Noord Sint Pietersberg, is an excellent place to explore while in Maastricht. These historic caves were created over centuries by labourers and mineworkers and were even a place of refuge from battles during WWII. Visitors can observe century old writings on the wall, paintings and relics that belonged to the workers and refugees.

Basilica of St. Servatius

The Basilica of Saint Servatius is a historical Roman Catholic Church dedicated to Saint Servatius, an Armenian missionary who died and was buried in Maastricht in 384. Pilgrims have traveled to Maastricht to visit the tomb of Saint Servatius for centuries and today visitors can observe many ancient crypts and treasures on display in this Romanesque basilica. Basilica of St. Servatius is located next to the church of Saint John near Maastricht's main square, Vrijthof.

WUN CONFERENCE & AGM 2017 NEW YORK CITY, USA | 3-5 MAY 2017

The WUN Conference & AGM 2017 will take place on 3-5 May 2017 in New York City, USA.

New York City will play host to the core days of the WUN AGM and the Presidents Forum, with the preceding academic conferences and workshops taking place at nearby WUN member universities UMass Amherst and Rochester. By hosting the AGM, Global Challenge Steering Group meetings and Presidents Forum in New York City, we anticipate that member university delegations will be able to include important side meetings with the many alumni, donors, governments, industry and foundations that call New York home. We ask you to block these dates in your calendar now and we hope you will be able to join us in New York City!
