

WORLDWIDE UNIVERSITIES NETWORK (WUN)
EARLY CAREER RESEARCHER WEBINAR SERIES

UPCOMING SESSION

Research Impact: Do we all mean the same thing?

10 June 2025

[Click here to see your local session time.](#)

The Worldwide Universities Network (WUN) brings together 25 leading comprehensive research universities in a collaborative partnership to advance research and education on major global challenges. Capitalising on the geographic and cultural diversity of members across six continents, WUN enriches their shared experience, and brings together constellations of talent to address problems of real significance.

As part of its commitment to nurture research talent, WUN offers early career researchers (ECRs) from member universities and partner networks ARUA and AUN, webinar-based training sessions on transferrable skills related to their career development, and to provide a platform for ECRs to meet colleagues from around the network.

SESSION TOPIC

Research Impact: Do we all mean the same thing?

TOPIC SUMMARY

When we think about the ways our research could change the world (within or outside academia) are we all conceptualising it in similar ways? Research impact is inherently subjective and as such our values and biases can mean we focus on some types of research impact and neglect others. Is that the same for national research ecosystems? This session will help you to explore the types of impact you prioritise and those you do not and compare that to the variations across the different research ecosystems that WUN member institutions are part of.

By the end of this session, you should be able to:

- * Identify how research impact is conceptualised
- * Describe the types of research impact you value and why
- * Reflect on how this shapes your future research strategy

SESSION TIME

10 June 2025

[Click here to see your local session time.](#)

WHO CAN JOIN?

All early career researchers from WUN, ARUA, or AUN members universities are welcome to attend.

As part of our emerging collaborations with the African Research Universities Alliance (ARUA) and the ASEAN University Network (AUN), early career researchers from ARUA and AUN member universities are welcome to attend.

All participants **MUST** register using a valid WUN, ARUA, or AUN member university email address. Any registrations that do not use a WUN, ARUA, or AUN member university email address will not be confirmed.

SESSION LED BY

Dr Ged Hall, University of Leeds
