

The Role and Responsibilities of a Principal Investigator

Facilitator

Dr Jim Baxter, University of Leeds, England

Getting to grips with the many responsibilities of leading a research project can be challenging. This session will identify the responsibilities of being a principal investigator (leader) of a research project and will consider what can be done to prepare to fulfil these leadership, management and administrative responsibilities.

By the end of the session, you should be able to:

- Identify your responsibilities as the leader (principal investigator) of a research project.
- Identify practical steps to strengthen how you lead research projects and teams.

Who can join?

All early career researchers from WUN, ARUA, and AUN member universities are welcome to attend.

As part of our emerging collaborations with the African Research Universities Alliance (ARUA) and the ASEAN Universities Network (AUN), early career researchers from ARUA member universities are also very welcome to attend.

All participants must register using a valid WUN, ARUA, or AUN member university email address. Any registrations that do not use a WUN, ARUA, or AUN member university email address will not be confirmed.

ABOUT WUN

The [Worldwide Universities Network \(WUN\)](#) brings together 24 leading comprehensive research universities in a collaborative partnership to advance research and education on major global challenges. WUN offers early career researchers (ECRs) from member universities webinar-based training sessions on transferrable skills related to their career development.
